Roaring waters

A JEWEL IN THE ALPS

The Wolfsklamm Gorge impresses nature lovers with thundering waterfalls, emerald green pools and a refreshing, rising mist.

Roaring water torrents, the burbling of Stanser Brook and swaying bridges ensure the hike through Tyrol's most beautiful gorge is a truly memorable experience.

All the more so in summer, as the gorge is refreshingly cool.

St. Georgenberg

MONASTERY & INN

Approximately 350 steps, timber bridges and galleries carved into the rock lead upwards to the pilgrimage monastery of St. Georgenberg, the oldest place of pilgrimage in Tyrol. The hosts of the St. Georgenberg pilgrimage church restaurant pamper visitors with delicious and traditional dishes from the region in the idyllic beer garden.

The walk from Stans to St. Georgenberg takes around one and a half hours. You can return via the Way of the Cross over „Weng“ or „Maria Tax“. For safety reasons, hiking downhill through the gorge is not permitted.

Recreation village

STANS IN TYROL

The sun-blessed village of Stans with its 2,200 residents is located near the district capital of Schwaz and is the ideal starting point for hikes in the Karwendel Mountains.

The village is favoured as a starting point for the Karwendel Tour by beginners and experienced hikers alike. Rugged peaks, as well as lush alpine meadows are your constant companions through the Nature Park.

Next to the famous Wolfsklamm Gorge, Maria Tax Chapel and the imposing Tratzberg Castle (see picture on the left) are also popular day trip destinations.
